WORK EXPERIENCE

Sovos, Wilmington MA   *March 2019 – Present*
Quality Assurance Engineer

- Wrote automated test cases using Robot Framework and Selenium library
- Write and carry our manual test cases for testing tax filing software
- Queried databases using SQL
- Ran batch files through the command line
- Utilized JIRA and Zephyr for bug documentation, test case documentation and team collaboration

Amego Inc., Attleboro MA   *April 2018 – January 2019*
School Physical Therapist

- Used Excel to build a self-populating calendar using weekday and date functions with month and date as an input and conditional formatting to alert insufficient treatment minutes
- Develop and present comprehensive reports for interdisciplinary team and families at IEP meetings
- Evaluate and treat students with developmental disorders and severe behavioral challenges
- Collaborate with classroom teachers to provide necessary accommodations for students to allow them to effectively access their school environment and curriculum.

Brigham and Women's Faulkner Hospital, Boston MA   *September 2017-September 2018*
Acute Care Physical Therapist

- Used Excel to build patient profiles and created pivot tables to analyze patient outcomes (ie. Surgeon with shortest post-operative length of stay)
- Worked with interdisciplinary team, patients and families to determine safe discharge plan
- Participated in daily interdisciplinary rounds with MD, CM and SW
- Evaluated/treated medical and post-op orthopedic patients

Rhode Island Hospital, Providence RI   *January 2015- July 2015*
Rehab Aide

- Populated databases with patient information using Microsoft excel
- Ordered medical equipment
- Assisted physical therapists with treatments
